**GUIDELINES IN THE CONDUCT OF
THE BASELINE DATA GATHERING FOR NSBI, DCP, AND DICP
IN PUBLIC ELEMENTARY AND SECONDARY SCHOOLS**

I. PROCEDURES

SCHOOL LEVEL

The school principal is the appointed primary representative for each school. The school principal will receive a call from Nielsen's recruitment team to schedule the exact date and time for the school visit, within the time allotted for the municipality. The schedule for each municipality is provided in ANNEX A.

During the call, the school principal will be advised to fill up the forms in ANNEX B, which will be submitted to the field enumerator during the school visit. The schedule will allow the school principal enough time to accomplish the attached forms in ANNEX B. The school principal may assign other personnel within the school to fill up the form, but will still own the responsibility of ensuring the completeness and accuracy of the form. A sample form with answers is provided in ANNEX C. The form in ANNEX B must be fully accomplished upon the date of the school visit.

During the appointed date and time of the school visit, Nielsen's field enumerator will present the school principal with the letter of authorization issued by DEPED to allow the field enumerator to conduct the visit and audit certain facilities. The field enumerator will check the form for completeness and is authorized to validate the contents of the form through random checks of the facilities.

The interview is estimated to last for 120 minutes, which will entail the following activities:

- Verify details on the accomplished survey form
- Asking additional questions
- Taking pictures of the school façade, inside and outside e-classroom
