AgriKonomiya 2023 is one of the UP Agricultural and Applied Economics Circle's flagship projects for the year 2023 which covers the impacts and implications of the emerging agricultural paradigm to our economy. This event is anchored to the objective of the organization to promote Agricultural and Applied Economics as a field of study and a career. With the success of last year's AgriKonomiya 2022 having over 106 participating schools nationwide, AgriKonomiya 2023 will still be a month-long event with **five (5) competitions** and **one (1) Seminar/Webinar**. This year's Installment presents a new set of competitions that will challenge the students to the best of their capabilities.

With its theme *"Changing the Landscape: Economic Development through Emerging Agricultural Paradigm"*, Junior and Senior High School students from different schools all over the Philippines will compete with each other in an **Essay Writing Competition**, **Poster Making Competition**, **Promotional Video Competition**, **Debate Competition**, and lastly, an **Agricultural Resolutions Pitch Competition**. All competitions will still remain to be conducted in an online setup and available for all Junior and Senior High School students across the country.

WHAT IS AGRIKONOMIYA?

As part of our ongoing effort to gradually transition away from the virtual setup and toward a more traditional one, this year's seminar

will be conducted inside the University of the Philippines Los Baños campus and will be broadcasted live through zoom and fb live for those who cannot attend the event physically.

The organization aims to influence students to critically assess the issues relating to our agricultural sector and to the economic state of our country, as well as to evaluate and recognize the emerging paradigms that can assist in the improvement of these fields. In addition, the organization hopes to encourage its participants to play an active role in the agricultural sector and recognizes that Agricultural and Applied Economics is an ideal field of study for achieving this objective.
