Re: **Request to Disseminate Information regarding Professional Development Activities for School Leaders and Teachers**

In light of the pressing need to improve teacher quality and school leadership across all levels of basic education, and in support of ongoing national efforts to address learning recovery and enhance instructional competence, we respectfully request your assistance in disseminating information regarding an upcoming training initiative for school leaders and teachers within your jurisdiction.

This training program is informed by the findings of the Second Congressional Commission on Education (EDCOM II), which highlighted critical gaps in teacher preparation, continuing professional development, and instructional leadership. Among its key findings, EDCOM II emphasized the urgent need to align teacher development initiatives with classroom realities, ensure sustainability of training programs, and strengthen school leadership as a catalyst for effective teaching and learning.

In line with these directives, the upcoming training seeks to equip school heads and teachers with evidence-based strategies in curriculum planning, assessment design, inclusive education, and instructional leadership. It is designed to be responsive, practical, and aligned with national goals on quality and equity in education.
