

Republic of the Philippines  
**Department of Education**  
Region IV-A  
SCHOOLS DIVISION OF QUEZON PROVINCE

**DIVISION ADVISORY NO. 163, s. 2021**

December 20, 2021

In reference to the letter from the Founding National Coordinator of the Climate Science Community Philippines, Miss Rochelle L. Bata, this advisory is issued for the information of all PSDSs, Public and Private Secondary School Heads, Public and Private Elementary School Heads, Science Teachers and other Science enthusiasts.

**CLIMATE WAVES – SCHOOL IN ACTION PROGRAM**

The Climate Science Community Philippines (CSHP), through their Climate waves – School in Action Program invites teachers to integrate climate in their classes. This is why they have developed easy-to-understand science-based materials, and fun educational programs. The said materials can also be integrated to any subject they are teaching.

Teachers who will join in this program shall register to the link <https://bit.ly/ClimateWavesRegistrationForm> which also contains more information about the mechanics. You may also email [jas@climatescience.org](mailto:jas@climatescience.org) for more queries.

For immediate and wide dissemination.

**ELIAS A. ALICAYA JR. EdD**  
Assistant Schools Division Superintendent  
Officer-In-Charge  
Office of the Schools Division Superintendent

Dear DepEd Division Heads,

Good day and I hope this email finds you well.

On behalf of [ClimateScience Community Philippines \(CSCPH\)](#), I am reaching out to request your assistance in inviting our schools and teachers to integrate climate education in their classes using our free climate education resources for teachers for a chance to win Php12,500, as part of our *Climate Waves – School in Action* program.

CSCPH is the local community of [ClimateScience](#), a youth-led organization based in the UK with communities in 30+ countries, with the mission of promoting solutions-focused climate education through science-based, easy-to-understand, and fun educational materials and programs.

We recognize the vital role schools and teachers play in reshaping the trajectory of social change, such as solving climate change. This is why we have developed engaging and science-based [materials for teachers](#) to allow our teachers to integrate climate education in their classes, regardless of the subject they are teaching.

Our goal is to bring these materials to 1000 schools all over the Philippines. We also seek teachers' feedback to help us improve the materials and make them more effective tools for teaching climate change to students.

In this regard, we would like to invite you to join us in our mission by inviting schools and teachers to participate. Here is the link to the registration form, which contains more information about the mechanics: <https://bit.ly/ClimateWavesRegistrationForm>

Our raffle will happen on **December 17 and January 16**, where two teachers each from Metro Manila, Luzon, Visayas, and Mindanao will win Php12,500 each.

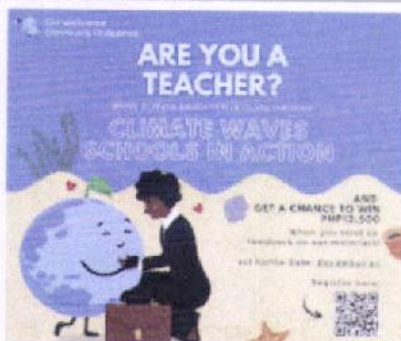

Please also find attached a poster, which you can share with the schools and teachers.

Please feel free to respond to this email or email [jas@climatescience.org](mailto:jas@climatescience.org) if you have any questions.

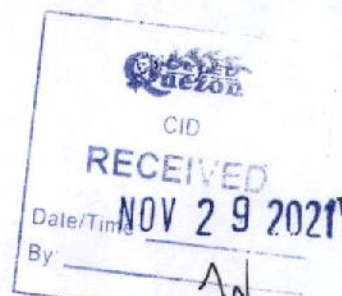

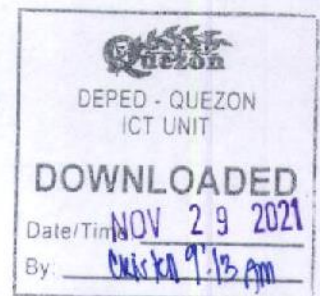

We hope that you'll find our mission of promoting climate education worthwhile and that you'll join us in making our transition to a sustainable future actionable.

Thank you and warmest regards,

Rochelle L. Bata
