4TH NATIONAL SCIENCE AND ENGINEERING FAIR PHILIPPINES

The National Science and Engineering Fair Philippines and STEM HUB GLOBAL-Los Angeles invites learners and teachers to participate in the **4th National Science and Engineering Fair Philippines** to be held on March 15- 16, 2025 at AXIAA Hotel, Quezon City.

The activity will provide opportunities to elementary, junior and senior high school students to showcase researchers focused on environmental, societal and other community related issues.

Participation by learners and teachers from both public and private schools is strictly voluntary and must not interfere with instructional time. This aligns with the provisions of DepEd Order No. 09, s. 2024, titled "Implementing Guidelines on the School Calendar and Activities for the School Year 2024–2025," as well as DepEd Order No. 9, s. 2005, titled "Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith." Furthermore, any off-campus activities must adhere to the guidelines specified in DepEd Order No. 66, s. 2017.

The details of the activity can be found in the attached letter from the NSEF Secretariat.

The Schools Division Superintendent
Department of Education

Dear Madam/ Sir,

Subject: 4th National Science and Engineering Fair Philippines

A pleasant day to you!

In support to the thrust of the Department of Education curriculum in cultivating a nation full of critical thinking and problem solving citizens through holistic learning and standards-based education, the STEM Hub Global-Los Angeles, a premier institution based in California, USA with the focus on STEM Education, research and education programs would like to seek for your endorsement for the 4th National Science and Engineering Fair (NSEF) Philippines to be held at the AXIAA Hotel, Quezon City on March 15-16, 2025.

The program aims to create a culture of research in the nation and bring about opportunities for learning and collaboration platform among the participants. In April 2018, there were about 300 young research finalists and observers with 81 research projects from all over the country participated in the 1st NSEF. We are successful in the digital publishing these abstracts in the National Library of Singapore through the support of our international partner Ascendens Asia Singapore. The event was followed by the 700 research participants in 2019 with 300 research and 500 projects with 1000 proponents nationwide in 2020 making us the biggest scientific research gathering for the basic education in the Philippines. The pandemic halted our operations due to scientific institution and academic learning restrictions. In 2025, with the theme "THINK, CREATE & EXPLORE", we are bringing back the grandest scientific event for students to assist the country in the promotion and development of science literacy, critical thinking and problem solving skills among its people.

We respectfully seek for your usual support by sending representative elementary, junior and senior high school students from your city who have created researches which attempted to address environmental, societal and other related problems under your area of jurisdiction. Hoping that with your great support, we could be able to create a civilization filled with scientific minds that have greater appreciation and desire to improve the lives of the human beings, the society and the environment.

Attached are the details of the events as well as the program matrix.

Thank you very much!

Sincerely,

NSEF 2025 Secretariat

NSEF 2025 Pre-Registration Process

How to join:

I. Students should submit their abstract on the following link and wait for the project acceptance within a month after the submission. The fee for the pre-evaluation has been waived by the organization. There should only be a maximum of four members per project.

Abstract submission starts on November 19, 2024 to January 7, 2025.

Submit the abstracts to:

<https://forms.gle/uy6WJoyGctYJYsAc9>

II. Once accepted as finalist, the participants will be given instructions via email on how to register. Registration must be done within a week upon acceptance to the fair. Registration of the finalists will be 'first come first serve' basis due to the limitations on the number of participants. Parent and teachers may join as observers under one project only and be considered as part of the official delegation.

III. This is a 2-day live out event but option for lodging is available upon registration.
