

Republic of the Philippines
Department of Education
Region IV-A
SCHOOLS DIVISION OF QUEZON PROVINCE

DIVISION ADVISORY NO. 297, s. 2025
September 12, 2025

In compliance with DepEd Order (DO) No. 8, s. 2013,
this advisory is issued not for endorsement as per DO 28, s. 2001,
but only for the information of DepEd officials,
personnel/staff, as well as the concerned public.
(Visit www.deped.gov.ph)

PARTICIPATION IN COLLOQUIA 2025

The University of the Philippines, Civil Engineering Society (UPCES), invites the participation of the field in the Colloquia 2025, a research proposal competition of high school students throughout the country. Details related to this are found in the attached communication.

Participation in the above activity should be voluntary and shall be governed by the No Disruption of Classes Policy, and the Time-on-Task Policy of the Department, as stipulated in DepEd Order No. 09, s. 2005. Moreover, no DepEd fund shall be used to defray expenses of this activity.

For information of all concerned.

CHANGING CURRENTS:

ADAPTING TOWARDS SUSTAINABLE AND EFFICIENT SYSTEMS THROUGH
WATER RESOURCES AND ENVIRONMENTAL ENGINEERING

04 August 2025

To the esteemed members of the Department of Education
Region IV-A (CALABARZON),

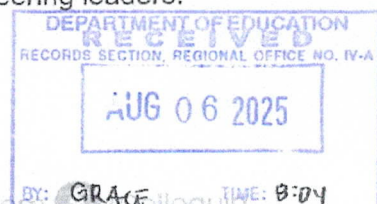

Warm greetings!

The University of the Philippines Civil Engineering Society (UPCES) is a duly accredited academic organization within the University of the Philippines Los Baños (UPLB). Established in 1993, UPCES has consistently cultivated a legacy of excellence, producing honor graduates, board topnotchers, and globally competitive civil engineers.

As the organization remains steadfast in its commitment to fostering student development across academics and community service, we are proud to host **COLLOQUIA 2025**, a virtual academic forum that dives into the various fields of civil engineering. With the theme, "**Changing Currents: Adapting Towards Sustainable and Efficient Systems Through Water Resources and Environmental Engineering**", this year's iteration focuses on the dynamic challenges shaping water resources and environmental engineering today and on encouraging aspiring civil engineers to confront these challenges through innovative thinking and with firm resolve to champion sustainability.

To further enrich our noble goals and amplify our purpose, COLLOQUIA 2025 will bring together **junior and senior high school students** from different universities across the country in a **Research Proposal Competition**. Now on its second installment, this event is envisioned as a catalyst for academic enrichment and streamlining solutions to enhance water system resilience.

In view of this, we respectfully seek your endorsement to help broaden our reach and contribute meaningfully to the success of COLLOQUIA 2025. Your support would be pivotal in inspiring the next generation of civil engineering leaders.
